**We follow our mission for
hospitality to organize
successful events.**

Destination Management Company

San Marino Welcome.

San Marino Welcome brings together the best accommodation, events and incoming facilities operating in the tourism sector of San Marino, with the aim of creating a real Destination Management Company (DMC).

We take care of both business and private customers in the planning and organization of events, conferences and in the promotion of holiday packages in our area. We pool resources and professionalism in the fields of event planning, transportation, reception, hospitality management, VIP treatment, incentives and private events, always with a touch of tailor-made creativity.

Our mission is to add value to the San Marino territory through the offer of professional services based on our deep knowledge of the country and of its different stakeholders. We aim to generate opportunities for all companies that wish to collaborate with us in enhancing the appreciation of San Marino as an exclusive destination

We believe that the most successful strategy is to involve all the economic operators and stakeholders who work in the tourism industry, favoring the quality of facilities and professionalism of services.

The Republic of San Marino.

A timeless journey to discover its roots and identity and its values of authenticity and freedom, which have remained unchanged throughout a history of more than 1700 years.

Territory and Uniqueness.

In 2008, the UNESCO International Foundation recognized the exceptional character of the historical and institutional heritage of the Republic, rewarding its millenary history and traditions with the inclusion in the list of World Heritage Sites.

History and Tradition.

The history of the Republic of San Marino is intertwined with the legend of its Holy Founder.

In the heart of 'Bel Paese'.

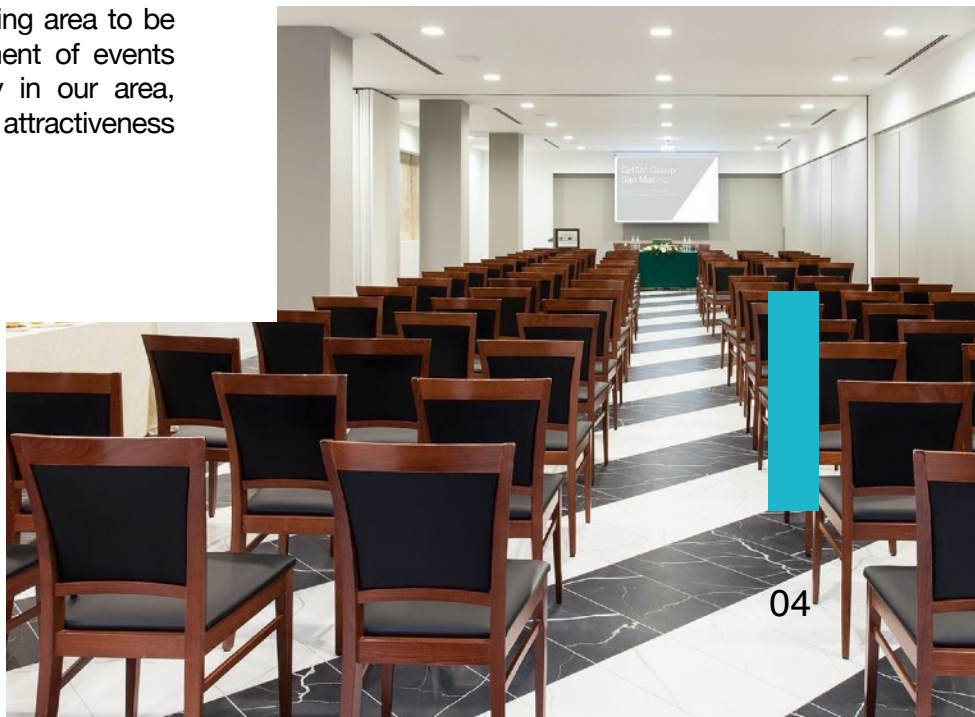

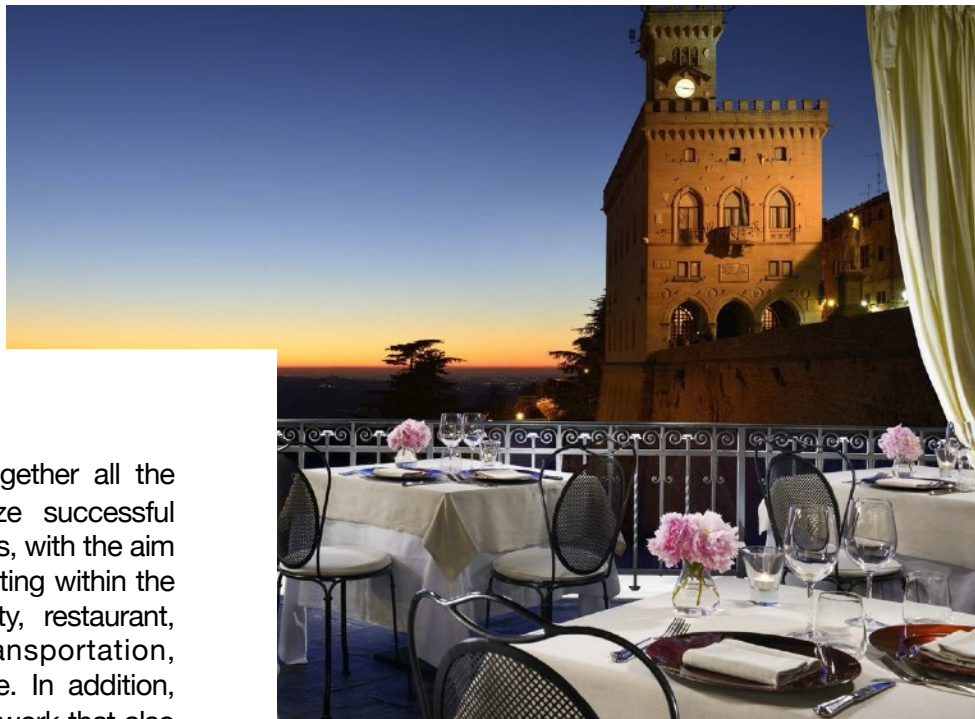

San Marino - The treasure chest placed between the Romagna Apennines and the Adriatic Sea. The Republic has always exerted an incredible charm and a strong attraction among the most sought-after international tourism destinations in Europe, with its 2 million tourists a year.

In its strategic position between the Apennine mountains and the Adriatic coast, very close to the airports of Rimini, Forlì, Bologna, the ports of Rimini, Venice, Fano, and Ancona, and the railway junctions of the Emilia-Romagna and Veneto regions to the north and the Marche to the south, the state, with its uninterrupted tradition of independence and sovereignty, offers a rich landscape and environmental profile to be experienced.

We value your experience.

Our Proposals.

San Marino Welcome brings together all the elements necessary to organize successful events, meetings and conventions, with the aim of involving all the facilities operating within the area in the sectors of hospitality, restaurant, catering, tourist guides, transportation, aggregation activities and leisure. In addition, we consider the creation of a network that also involves facilities in the neighboring area to be strategic to allow the management of events that cannot be held exclusively in our area, while maintaining a focus on the attractiveness of the facilities of San Marino.

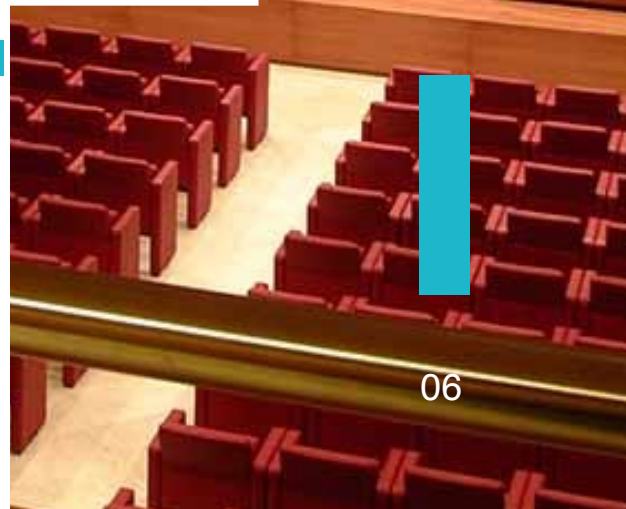

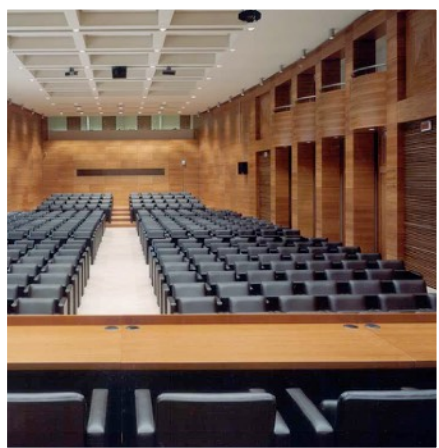

Hospitality.

The need that we intend to meet is to offer our customers the highest standards in terms of professionalism and quality of services: reception and widespread hospitality, excellent hotel facilities in the heart of the historic center of San Marino.

Events.

Thanks to our consultants, to our relationships with different local partners and the availability of exclusive locations, we offer customized and innovative high-value experiences to make your event memorable and exclusive. San Marino Welcome will take care of every detail, shaping it together with you according to how you envisioned it.
